Subject: Bremerton Gas Works Draft RI/FS Work Plan Available for Review

Greetings-

I am writing to let you know that the draft Remedial Investigation/Feasibility Study (RI/FS) Work Plan for the Bremerton Gas Works Superfund site is now available for your review. You can download it using the instructions found at the end of this message chain. Let me know if you have any difficulties accessing the document so that we can find an alternative way of getting you a copy of the draft Work Plan. Also note that the document will only be available at its current location until May 1 (a week from Friday). If you are unable to download it before then, let me know so that we can find an alternative way of getting the document to you.

For those who requested a hard copy of the document, you should receive your copy in the mail shortly.

Please note that portions of the work plan have been cut-and-pasted from the recently-completed Scoping Memo as described below, so you may choose to skip those portions of the work plan to streamline your review.

Please provide any comments you may have on the draft Work Plan to me no later than June 26, 2015.

You can submit your written comments via email or snail mail using my contact information found at the end of this message. Using your input, we hope to finalize the RI/FS Work Plan and begin investigation work later this year.

To help you with your review, we are currently planning to hold a meeting in Bremerton (exact location yet to be determined) in early June to discuss the contents of the draft Work Plan and to answer any questions you may have about it. We have tentatively identified June 2, June 4, and June 10 as potential dates for this meeting. You will be contacted in the near future about scheduling and meeting location.

Thanks for your continued assistance with our work at the site. Please don't hesitate to contact me with any questions or comments you may have.

Bill Ryan

Subject: Bremerton MGP RI/FS Work Plan DRAFT

Bill-

On behalf of Cascade Natural Gas Corporation, and in accordance with AOC, below is a link to download the draft RI/FS Work Plan. Hard copies will arrive next week. There will be three volumes: 1)Main text/tables/figures; 2)Appendices except health and safety plans; 3)health and safety plans. As requested, we will provide 2 of your 4 copies with the health and safety plans and 2 without.

To help your review, below is a summary of what has been imported from final scoping memorandum with no changes other than minor editorial tweaks and Section/table/figure reference updates:

Sections 2, 3, 4 – all text, tables, and figures

Section 5 – all text, tables, and figures, except for section 5.3 which is new

Section 6.1

Appendices C, D, E, F

Let us know if you have any comments or questions. Also let us know if you or anyone you forward this to has trouble downloading the files, and we will make alternative arrangements for supplying the electronic files.

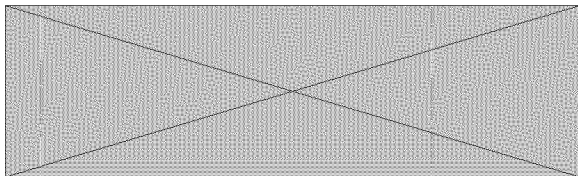

Thanks,

Jeremy
